

TECHNICAL DATASHEET

BIOVIS

Typical properties :

Density at 15°C		0,920
Viscosity Index		221
Flash point	°C	240
Pour point	°C	-36
Viscosity at 40°C	cSt	46
Viscosity at 100°C	cSt	10

- Specifications :**
- DIN 51524 T2 performance level
 - CEC L-33-T82 biodegradability

General information:

Biodegradable hydraulic oil with excellent anti-wear properties. High viscosity index. Based on vegetable oils. In all hydraulic equipment where leaks can spoil groundwater or enter the sewerage system. ISO VG 46 and high viscosity index. Low pour point.
