

TECHNICAL DATASHEET

ECOGREASE S00

Typical properties :

NLGI		2
Soap type		Li
Colour		green
Worked penetration		400 - 460
Dropping point	°C	> 180
Application range	°C	- 40 / + 120
Emcor corrosion test		0 / 0
Copper corrosion		
24 hr/ 100°C		0

General information:

Lithium soap type grease based on synthetic esters. Environmentally harmless and rapidly biodegradable. Central lube systems for trucks and busses. Excellent lubrication properties even at low temperatures. The use of ECO GREASE is ecologically beneficial, protects the environment in general, helps to keep ground water uncontaminated and to maintain human, animal and vegetable health.
