

TECHNICAL DATASHEET

GIREX

Typical properties :

ISO VG		680
Density at 15°C		0,901
Viscosity Index		97
Flash point	°C	230
Pour point	°C	-12
Viscosity at 40°C	cSt	680
Viscosity at 100°C	cSt	39
Timken Ok load		65
FZG Load stage		12

- Specifications :**
- DIN 51517 Part 3 CLP
 - API GL-3

General information:

GIREX oils are lead free, extreme pressure gear and bearing oils, having high viscosity index, which separate quickly from water, having excellent anti-foam characteristics and thermal stability. GIREX is recommended for use as industrial gear oil such as : worm, spiral bevel and non-hypoid gears.
