

TECHNICAL DATASHEET

HYDAR

Typical properties :

ISO VG		46
Density at 15°C		0.875
Viscosity index		151
Flash point	°C	200
Pour point	°C	- 47
Viscosity at 100°C	cSt	8.4
Colour		green

Specifications : Meets CASE-POCLAIN prescriptions

General information:

Special hydraulic oil with high viscosity index and extra anti-wear properties. Application in all hydraulic CASE-POCLAIN machinery and similar off-the-road hydraulic equipment. High viscosity index through the application of stable additives in carefully selected base oils. Reinforced anti-wear properties.
