

## TECHNICAL DATASHEET

# HYTAC

### Typical properties :

		80 WR	100 WR	220 WR
Density at 15°C		0,881	0,884	0,892
Viscosity Index		110	107	102
Flash point	°C	245	235	270
Pour point	°C	-27	-24	-9
Viscosity at 40°C	cSt	80	100	220
Viscosity at 100°C	cSt	10,2	11,8	19,7
Aspect		tacky	tacky	tacky
Copper strip		1a	1a	1a

### General information:

Strongly tacky anti-wear hydraulic oil, for application in all hydraulic and circulating systems where anti-wear properties are required. Also applicable in transmission boxes, couplings, chains, cables, slide bearings and all machinery where spots of the lube oil can be a problem
