

TECHNICAL DATASHEET

SYNTHETIC SUPERFLOW

Typical properties :

SAE		75W90	75W140
Density at 15°C		0,858	0,883
Viscosity Index		198	166
Flash point	°C	200	200
Pour point	°C	<-45	<-45
Viscosity at 40°C	cSt	92	246
Viscosity at 100°C	cSt	16,7	31,0

- Specifications :**
- API GL-5
 - Meets : SAE J306

General information:

Fully synthetic gear oil to be used in heavy charged transmissions. In other words for the final drives, operating under severe torque conditions, gear units and transmissions requiring EP-type oils for initial and service fills. Lower change gear power needed. High thermal and oxidation stability.
