

## TECHNICAL DATASHEET

# TWO STROKE

### Typical properties :

Density at 15°C		0.887
Viscosity index		104
Flash point	°C	144
Pour point	°C	-12
Viscosity at 40°C	cSt	66
Viscosity at 100°C	cSt	8.7
T.B.N. mg KOH/g		1.1
Sulfated ash	%	0,12

**Specifications :** CEC TSC-3

### General information:

Economy type, multi purpose, self mixing type two stroke motor oil for premixing as well as for use in lube oil injection system. For both water and air-cooled engines. Application : motorcycles, mopeds, scooters, mobile/portable generators, lawnmowers, ATV's... that are two stroke engine driven, operating on premixed gasoline or with a separate lube oil injection system.
