

## TECHNICAL DATASHEET

# UNITRAX

### Typical properties :

|                    |     |       |
|--------------------|-----|-------|
| Density at 15°C    |     | 0.875 |
| Viscosity index    |     | 142   |
| Flash Point        | °C  | 200   |
| Pour Point         | °C  | - 36  |
| Viscosity at 40°C  | cSt | 60    |
| Viscosity at 100°C | cSt | 9.6   |
| Colour             |     | L 3.0 |

**Specifications :** JD 14B, J20A, 303 ; Ford New Holland M2C134A ; ALLISON C-3 ;  
API GL-4 ; INT HARVESTER B-6 ( HY-TRAN fluid )

### General information:

Universal hydraulic fluid for tractors. Universal hydraulic oil for use in transmissions, hydraulic systems and wet brakes of agricultural and industrial tractors. Offers excellent protection against wear, oxidation corrosion and foam. Excellent working of wet brakes and prevention of noise. Compatible with most factory-filled "TH-fluids".
